

Kayla R. Webb

Software Engineer

Profile

Passionate about growth. Goal is to develop testable applications utilizing secure technologies and infrastructure in a cohesive environment that values diversity and mentorship, and contributes positively toward the public good.

Employment History

Software Engineer at Bloomberg Government, Washington D.C.

March 2018 – Present

- Utilized domain knowledge in the legislative space to write SQL queries and make connections amongst legislative data in order to spearhead initial api development for the BGOV mobile app.
- Integrated onto the mobile team and delivered fully functional, tested user story within the app in first sprint on the team and within first 3 months as a developer.
- Implemented the mobile app analytics on the client side, integrating the data with two providers to gather insights about user-driven events

Legislative Data Analyst at Bloomberg Government, Washington D.C.

June 2015 – March 2019

- Spearheaded 6-month project on Agile team to overhaul a federal legislative tracking alert system; utilized legacy codebase on GitHub and SQL to analyze patterns and streamline data in order to provide the most relevant, useful information for clients.
- Served as a liaison between technology team and product owner to accomplish deliverables

Education

Thinkful Engineering Immersion, Remote

September 2018 – March 2018

- Completed intensive, six-month course on modern full stack JavaScript development.
- Learned industry best practices and practical software development standards by collaborating several hours every week with a senior web developer and by pair programming with a peer up to 8 hours per day.

Political Science, Howard University, Washington D.C.

August 2009 – May 2013

GPA: 3.96 / 4.0 | Honors: Phi Beta Kappa | Summa Cum Laude
